Classic style

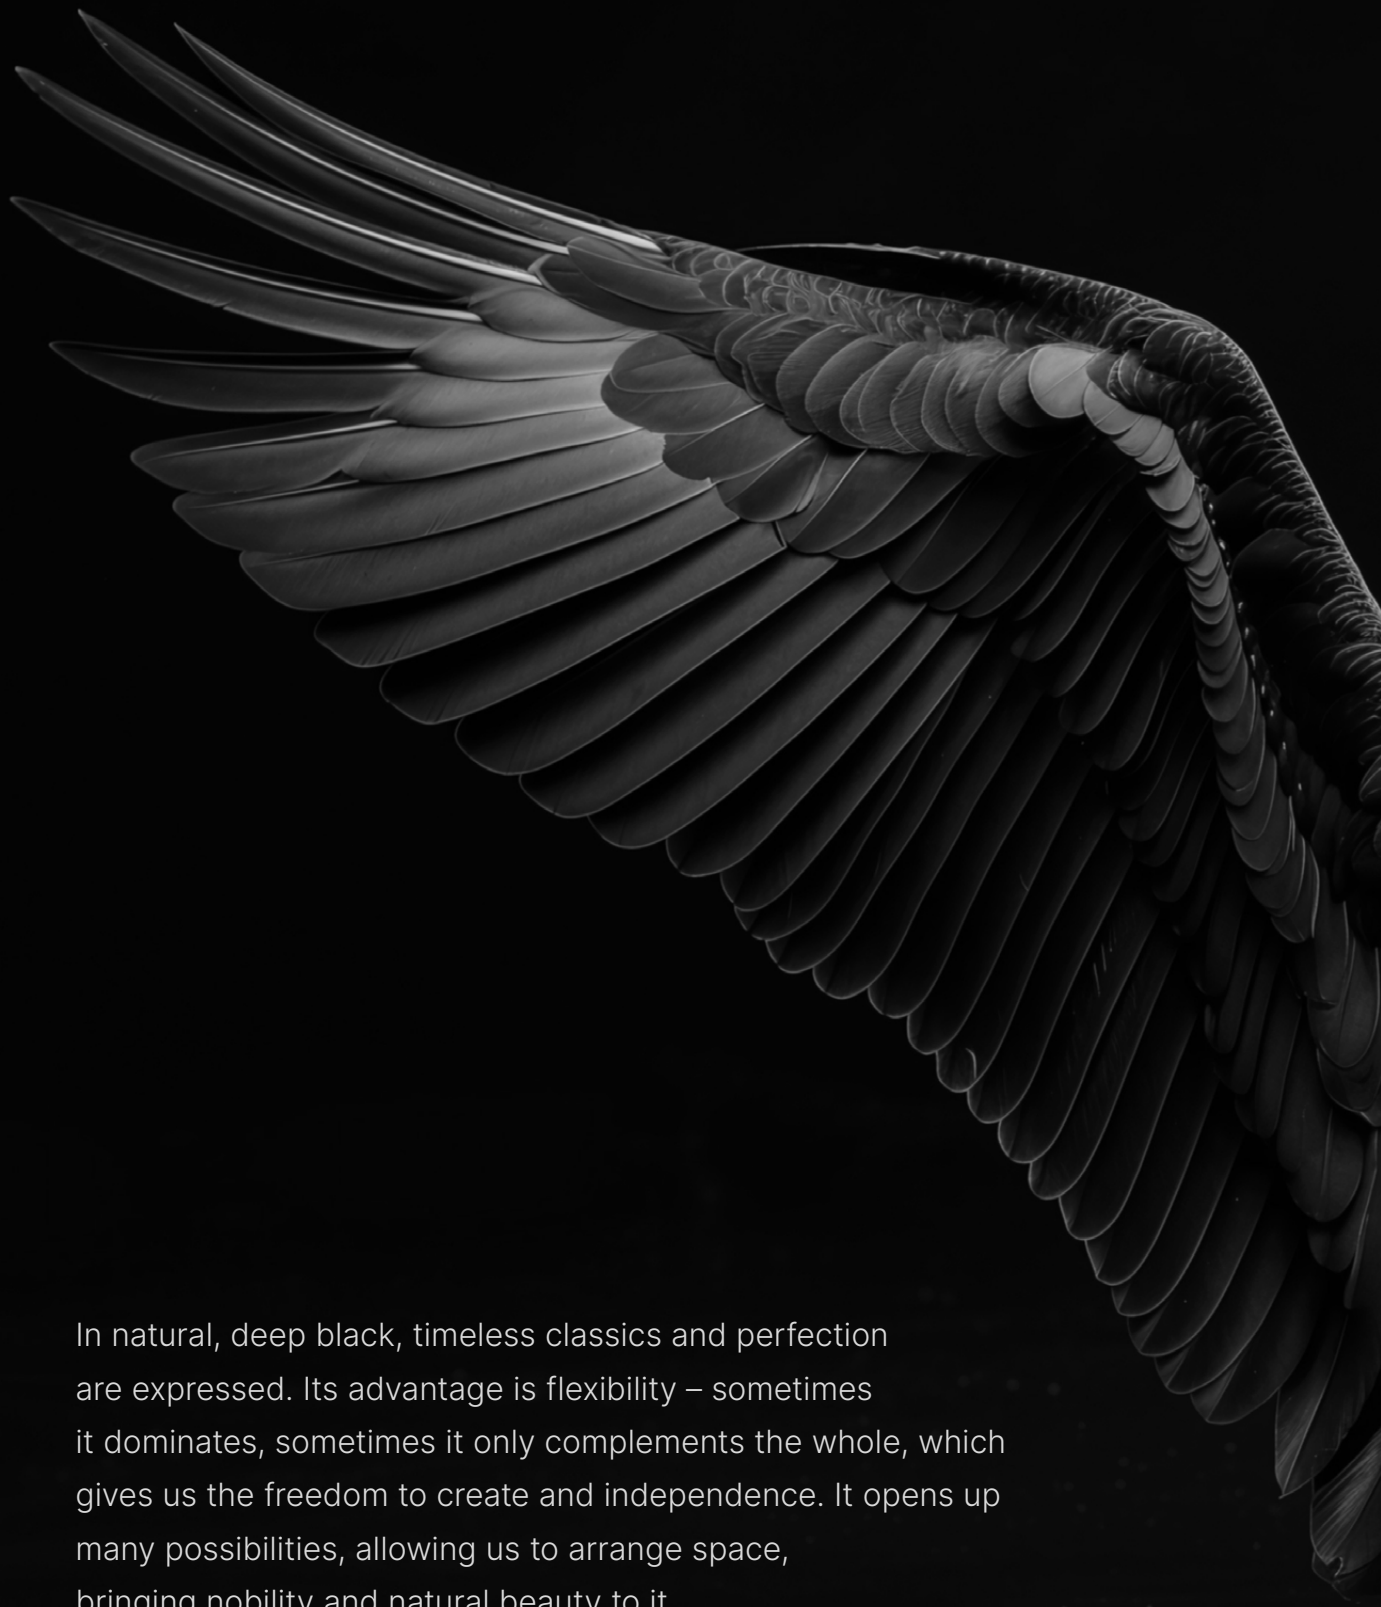

Beautiful & mysterious BLACK

The strength lies in the detail, and the details create the whole. The best proof of this is furniture accessories, which cannot be treated solely as finishing products. They are also design details on which we design interiors where we want to function. In recent years, the world of designers has embraced black, which is a manifestation of mature style and conscious interior design.

*Bird of Paradise
(exotic bird, Moluccas, New Guinea,
northeastern Australia)*

This trend is not accidental – black details not only add elegance but also introduce a modern, sometimes raw character to the space. Their popularity is due to the ease of blending with various styles and colors – in short, black goes with everything if used skillfully.

In natural, deep black, timeless classics and perfection are expressed. Its advantage is flexibility – sometimes it dominates, sometimes it only complements the whole, which gives us the freedom to create and independence. It opens up many possibilities, allowing us to arrange space, bringing nobility and natural beauty to it.

Black Swan
(Australia with Tasmania,
New Zealand, Europe, Japan)

We created this brochure with the beauty and unpredictability of black in mind. We want to show that it should not be feared in interiors, and with good planning and thoughtful arrangement, a unique space can be created.

black magic

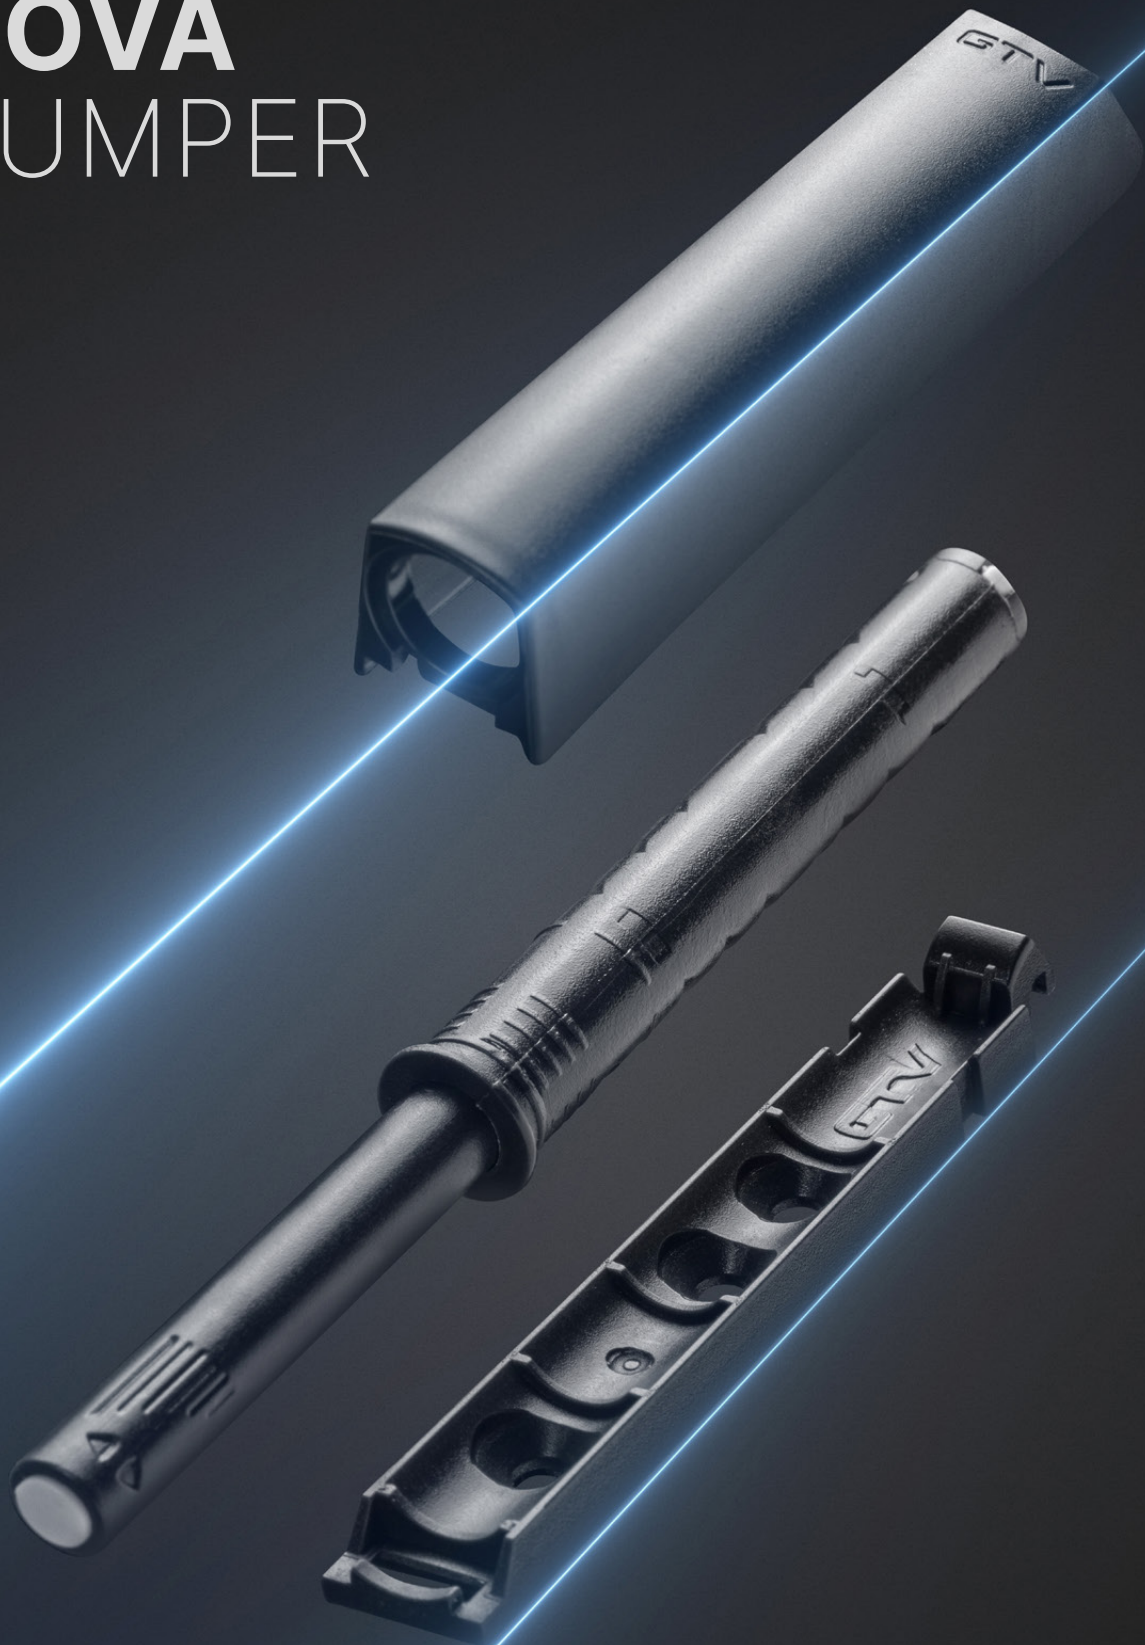

The devil is in the details

SILENTO PRO hinges are the silent heroes of our furniture – they are simply supposed to work reliably for years. In reality, these are complex and precise constructions made up of many elements, such as the cup, arm, clip, piston, pins, worm screw, mounting plate, or spring. All must work together to ensure reliability and everyday comfort.

AM-SVW-KR-MG-20	Short, recessed, with magnet.

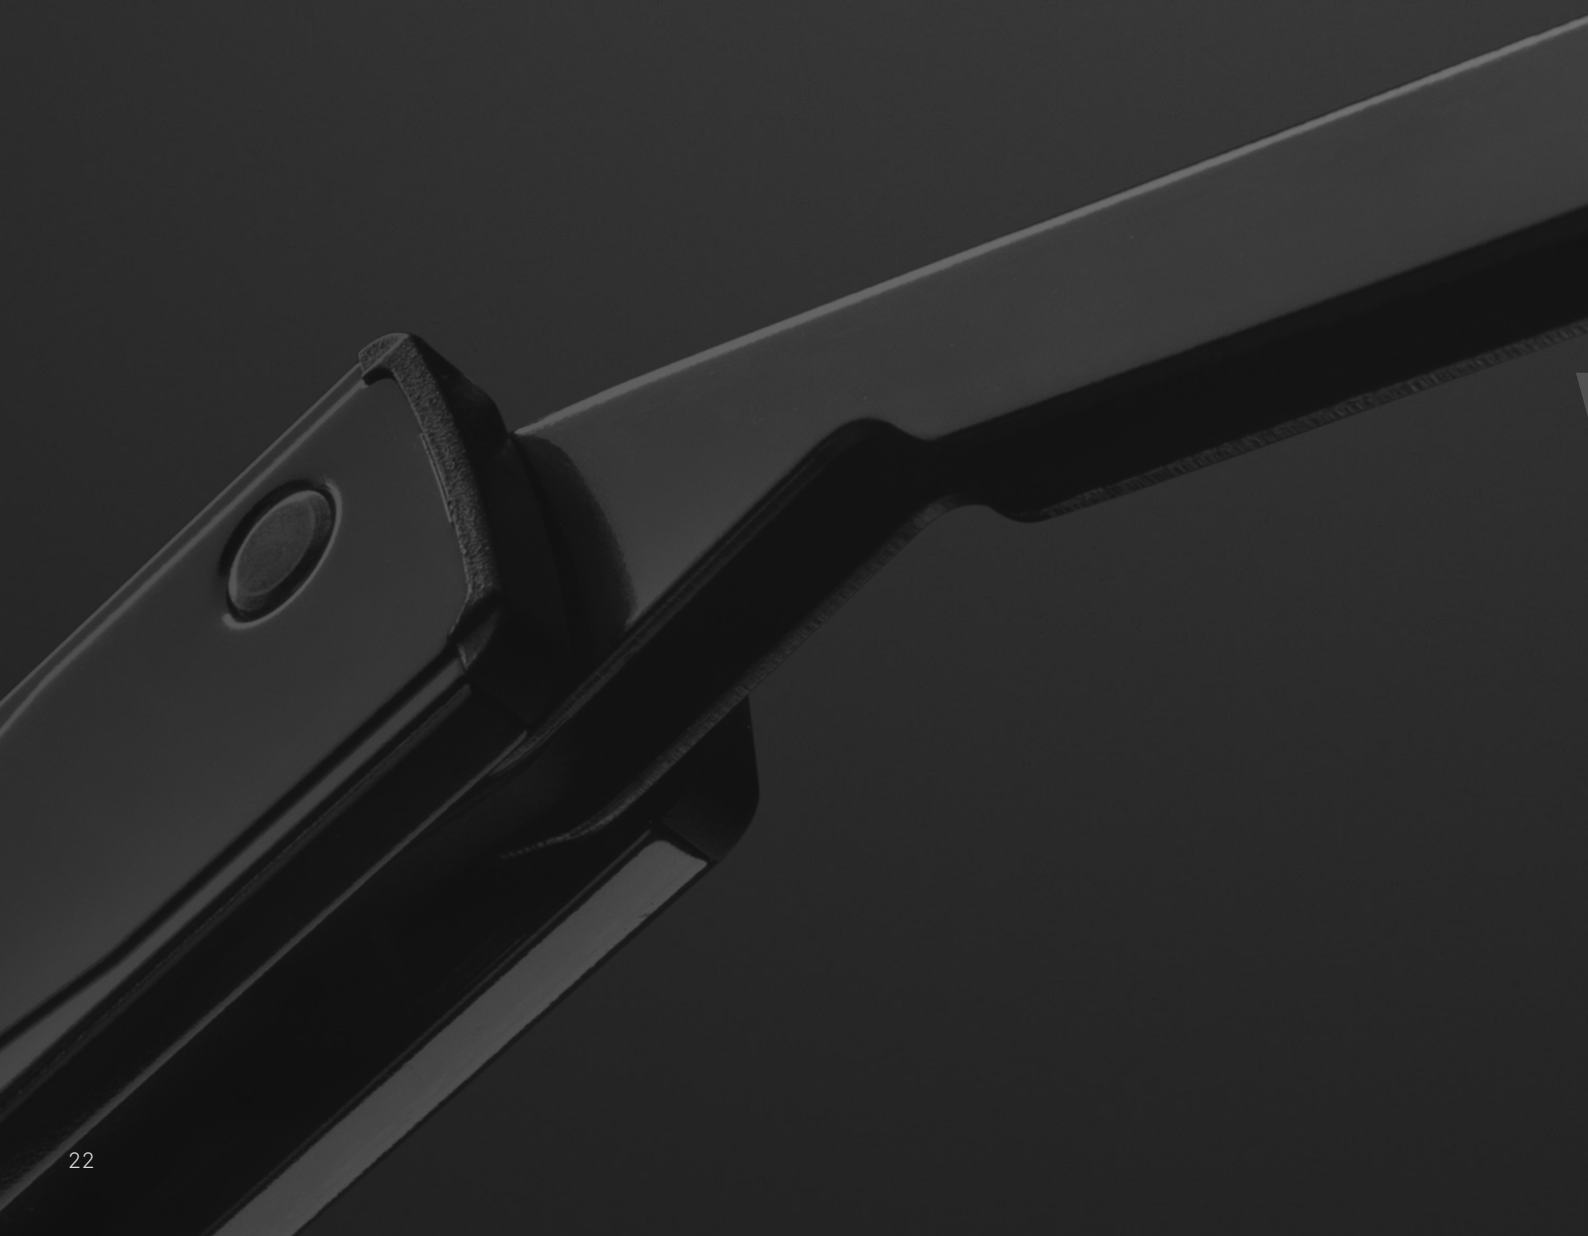

Movement control.

The SALTO NOVA bumper has been designed with handle-less fronts in mind, to ensure higher user comfort and improve their functionality. It works well in fronts equipped with push-to-open mechanisms or installed on self-opening hinges. Its construction is based on materials of exceptional durability, ensuring reliability and longevity. Choosing the SALTO NOVA bumper, we gain not only aesthetics, but also the highest quality confirmed by an SGS certificate for 100,000 usage cycles. With a magnetic or rubber tip, the product provides safety and protection, while ensuring quiet and efficient operation.

LIFTS

In a well-designed interior, every detail matters – including lifts that combine functionality with design. GTV lifts in universal black blend perfectly with trendy black furniture bodies, adding style and convenience.

Stylish
designed
product

with
ergonomics.

MINILIFT NEW

The MINILIFT NEW lift is a key element of modern and functional upper cabinets, ensuring smooth opening with damping and the ability to stop the flap in any position.

Arm strength adjustment facilitates installation and adaptation to the selected front, and the push-to-open and soft-close mechanisms enhance user comfort, preventing uncontrolled dropping of the front.

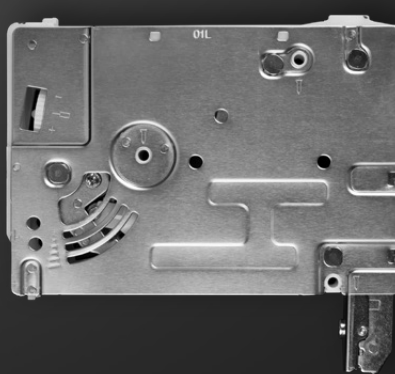

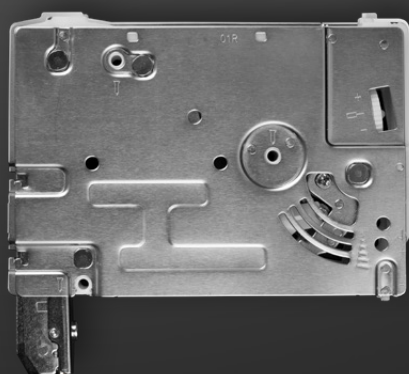

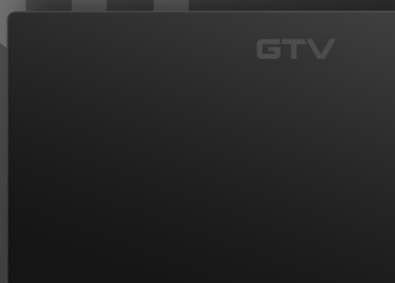

Made of steel, the lift is ideal for cabinet flaps with a front height of up to 550 mm, available in elegant black, with three strength variants and an approximate opening angle of 100°.

MINILIFT NEW lifts				
index	front dimensions		front weight	recommended number of lifts (pcs)
	height	width		
PD-MINILIFTNEW-LIGHT-20	300-400 mm	500-1000 mm	3,1-4 kg	2
PD-MINILIFTNEW-MEDIUM-20	300-450 mm	500-1200 mm	5,5-7,5 kg	2
PD-MINILIFTNEW-STRONG-20	380-550 mm	500-1200 mm	6,5-10 kg	2

HORIZON

smoothness damping strength

index	HORIZON LIFT
PD-H-LIGHT-20	Front height 300-450 mm, front weight 2-5 kg, strength 500-1350

PD-H-STRONG-20	Front height 350-650 mm, front weight 4,5-10 kg, strength 2000-4050
PD-H-STRONG-PLUS-20	Front height 400-650 mm, front weight 8-12 kg, strength 2500-5200

index	HORIZON lift push to open
PD-H-P2O-LIGHT-20	Front height 300-450 mm, front weight 2-5 kg, strength 500-1350
PD-H-P2O-MEDIUM-20	Front height 300-600 mm, front weight 2,8-7 kg, strength 1100-2250
PD-H-P2O-STRONG-20	Front height 350-650 mm, front weight 4,5-10 kg, strength 2000-4050
PD-H-P2O-STRONG-PLUS-20	Front height 400-650 mm, front weight 8-12 kg, strength 2500-5200

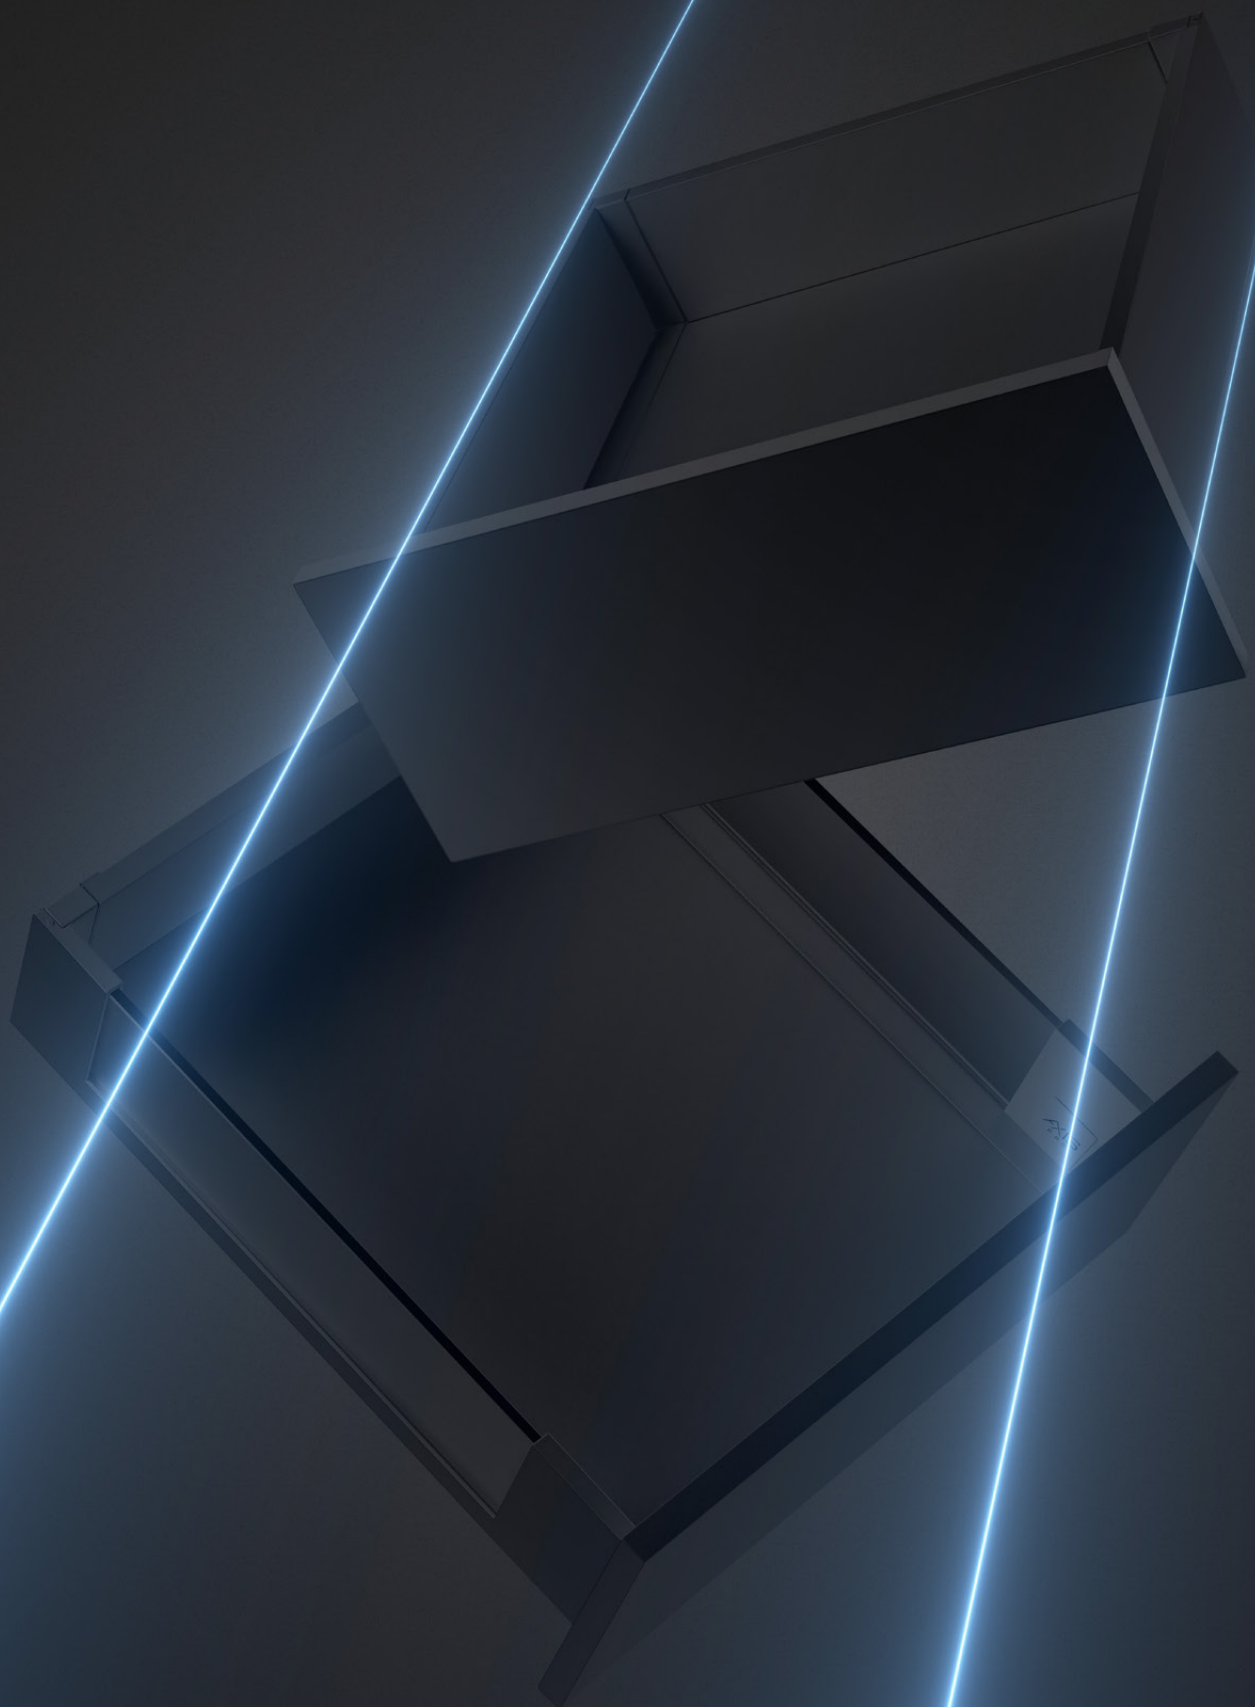

HORIZON is a mechanical lift ideal for modern upper cabinets. It ensures smooth opening and damping when closing, and the flap can be stopped in any position according to the user's needs. It offers three levels of adjustment: operating force, closing time, and an opening angle between 90° and 105°, making it a versatile solution for flaps with heights from 300 mm to 650 mm.

Four spring strength variants make it easy to adapt to different heights and front weights, while the black caps make the lift blend perfectly with modern interiors. Installation is quick and intuitive, without the need for additional templates – the lift's design also serves as a mounting template.

AXIS PRO DRAWER SYSTEM

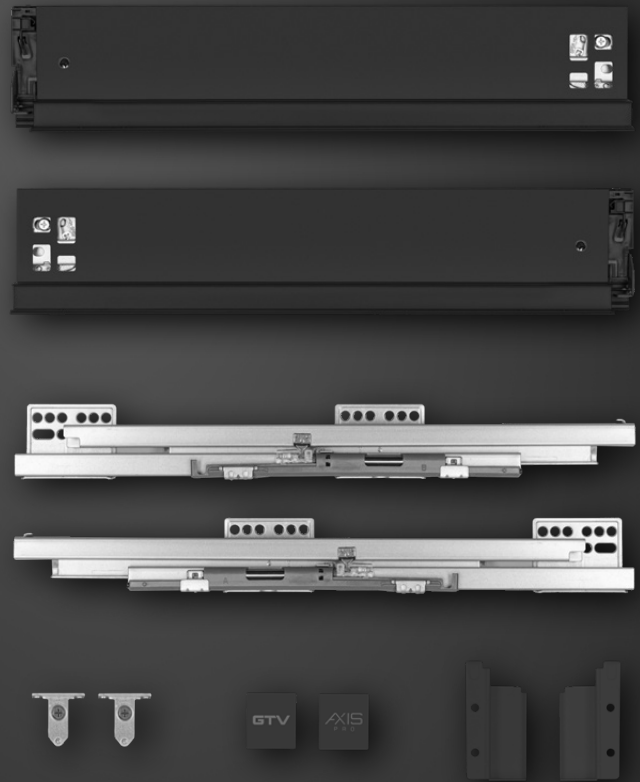

precision of movement

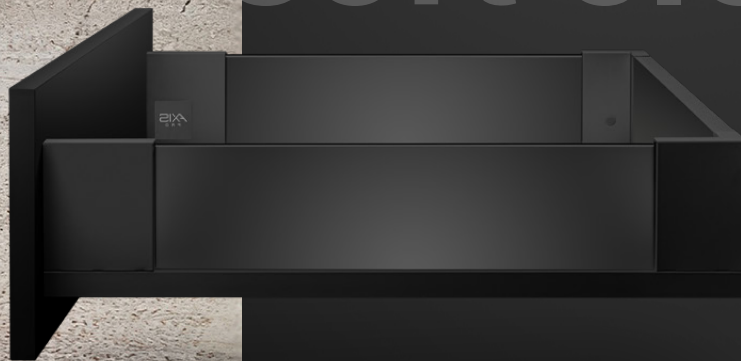

The AXIS PRO drawer collection in elegant black is the ideal solution for modern interiors, offering durability and functionality.

push to open

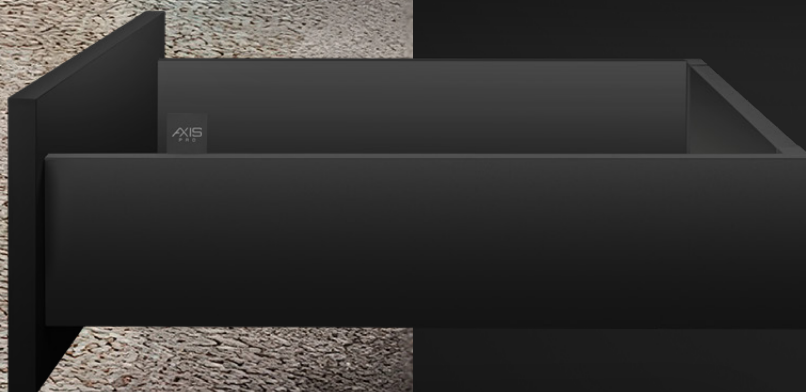

soft close

GLASS SIDE

AXIS PRO soft close

FULL SIDE

AXIS PRO soft close, AXIS PRO push to open

The better side of the house.

AXIS PRO drawers, AXIS PRO push to open, and the new AXIS PRO with glass sides offer full extension in lengths from 250 to 600 mm and are certified for 60,000 cycles. Soft close and push-to-open mechanisms with synchronized opening ensure smooth and silent operation. Thanks to slim sides (14 mm) and the ability to adjust up to 5 height variants, the drawers

maximize the internal space of the furniture. AXIS PRO with glass sides is distinguished by tempered glass, resistant to damage, and all models allow for a load capacity of up to 40 kg. Easy installation with internal adjustment and a wide range of organizational accessories make the AXIS PRO collection a versatile choice for any kitchen.

AXISPACE inserts are practical organizers for drawers, keeping everything in place.

Thanks to convenient dividers, they perfectly fit different types of cutlery, and the scratch-resistant material ensures long-lasting durability. The possibility of trimming the edges allows precise adjustment of the organizer to any drawer's dimensions.

The range includes dividers in various sizes (340-840 mm), which makes it easy to fit them to any space.

AXISPACE MAT

The black mat easily complements the black drawer and additionally protects the bottom of the drawer from scratches.

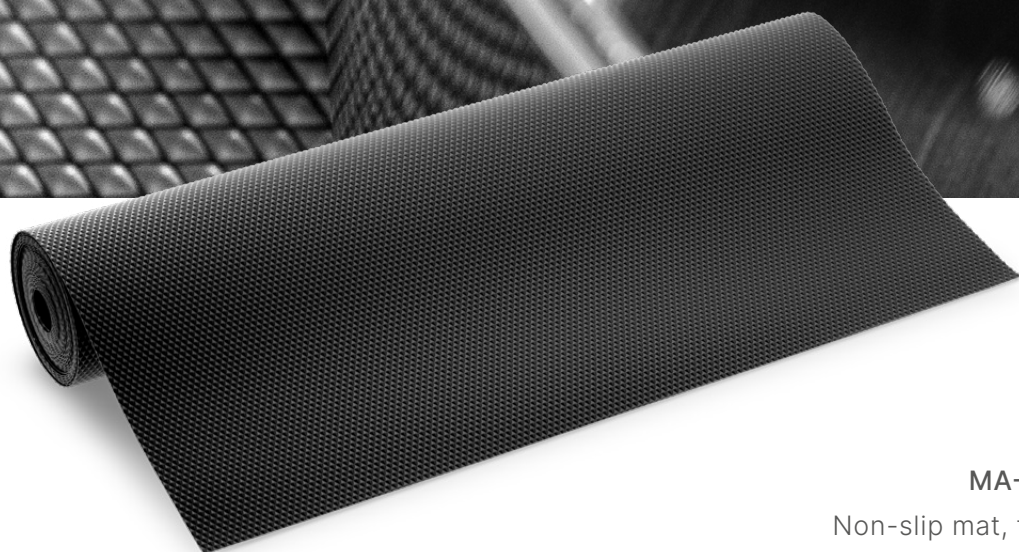

The AXISPACE non-slip mat is the ideal solution for all types of drawers and cabinets, not just kitchen ones. With a width of 480 mm and a length of 5000 mm, and the option to cut it to any size, it can be easily tailored to your needs.

The surface ridges effectively prevent items from sliding, while also protecting the bottom of the drawer from scratches.

Made from high-quality material in elegant black, it adheres well to surfaces, ensuring functionality and style in every arrangement.

HANDLES

Classic and black never go out of style.
Black handles fit into all interiors, and will blend perfectly
with a simple furniture form as well
as more refined shapes.

In modern interiors, we focus on minimalist style. Simple, uncluttered forms, sleek lines, and the classic black of handles can add charm to even the simplest piece of furniture. Loft and Scandinavian interiors are incomplete without black details that subtly accentuate the beauty of not only the cabinet or chest but the entire space.

Long furniture handles are currently the latest trend in interior design. They allow for convenient and easy opening of tall fronts, which is why they are worth installing on cabinets in hallways and bedrooms. In the kitchen, they will undoubtedly come in handy for cargo-style cabinets and home pantries. The LONG collection in the black variant works well with light, wooden fronts and shades of gray. Universal black complements any interior style.

FURNITURE **KNOBS**

Visually appealing and practical in use, black knobs in a classic and modern style will perfectly contrast with light furniture fronts. They complement the arrangement with furniture handles or serve as an original alternative to them. Our offer includes the most popular models on the market, in a

round shape or with gently rounded edges. Unconventional yet universal, they suit every type of furniture: wardrobe cabinets, kitchen cupboards, dressers with drawers, or hallway consoles. Black, matte knobs are a classic style, a simple convention in a stylish form.

HOOKS

The hallway is the showcase of the home, it must 'make an impression' on guests right from the doorstep. The style of the interior is created by details, and elegantly displayed, they can add to its charm.

We have created a collection of modern hooks based on minimalist design, maintaining an arresting yet delicate form. The black version responds to the need for beauty and classicism in the interior. Hooks stylishly contrast with white walls and blend perfectly with wood. Keeping up with the times, we opt for unconventional yet versatile and conventional solutions. The ergonomic shapes of GTV hooks are perfect for our coats, bags, and scarves, which we hang in the hallway.

Laptops, monitors, chargers, desk lamps – all these devices need power, and wires and cables can introduce chaos into the space. Desk cable outlets mounted in the countertop are a way to maintain order while preserving functionality and aesthetics. They come with an openable cover and a masking brush that protects against dust and moisture.

We offer a wide range: from small outlets for a single cable to larger ones for multiple cables. Many interior designers emphasize the importance of matching details like desk cable outlets to the overall appearance of the room. Black, matte outlets blend well with classic and industrial styles and correspond effectively with most countertops.

In bedrooms and wardrobes, we can use black elements such as the jewelry organizer from the ELITE line, which will become an impressive backdrop for the arrangement while offering elegance and functionality.

A well-planned wardrobe means daily comfort in choosing clothes, ease of maintaining order, and more storage space. It is worth reorganizing your wardrobe, whether it holds clothes for the whole family or you are planning a minimalist capsule wardrobe for yourself. Where to start with wardrobe arrangement? Start with a good design. Contrary to appearances, you don't necessarily have to order it from a professional. Just con-

sider your needs related to storing clothes and accessories. These needs will determine the choice of specific solutions within the wardrobe equipment. When planning the appearance of your wardrobe, first and foremost, take into account how much space you will need.

The next step should be to determine what clothes and accessories prevail in your wardrobe – a different storage system will be need-

Currently, the trends in organizing storage spaces are dominated by systems that save space while maintaining maximum comfort of use. GTV furniture accessories are no exception. Among them, you will find many interesting options that you can fit into a wardrobe of any size.

GLAX PROFILES

The current trend is to move away from individual LED fixtures in favor of linear lighting based on LED strips. When working, the LED strip generates heat that needs to be dissipated. To remove the heat from the strip, special aluminum GLAX profiles are used. GLAX profiles can be used in apartments, offices, shops, and restaurants. In homes, they work well as under-cabinet

lighting in the kitchen, bathroom, or bedroom, for example, behind the bed headboard. In offices or shops, they can be used as shelf lighting, display cases, and decorative elements. The offer includes recessed, surface-mounted, crown, partition, and plinth profiles. Such a wide range allows you to create lighting arrangements.

RIM PROFILES:

PA-GLAXWN3M-AL-20M (profile length 3 m)

PA-OSCLGLAX3M-00 (profile cover 3 m)

PA-USZGLAX-00N (gasket)

Surface-mounted profiles are among the most chosen products due to their versatility and ease of installation. Rim profiles serve a dual function: they illuminate the countertop surface and replace the handle. Therefore, they are ideal for furniture with a push-to-open system.

Surface-mounted profiles are available in various shapes, such as angled, micro, or tall, and in a wide range of colors. They allow for the creation of a unique, personalized look. The black cover adds elegance and creates a decorative effect that emphasizes the modern character of interiors. Ideal for those who appreciate a minimalist style and innovative solutions in interior design.

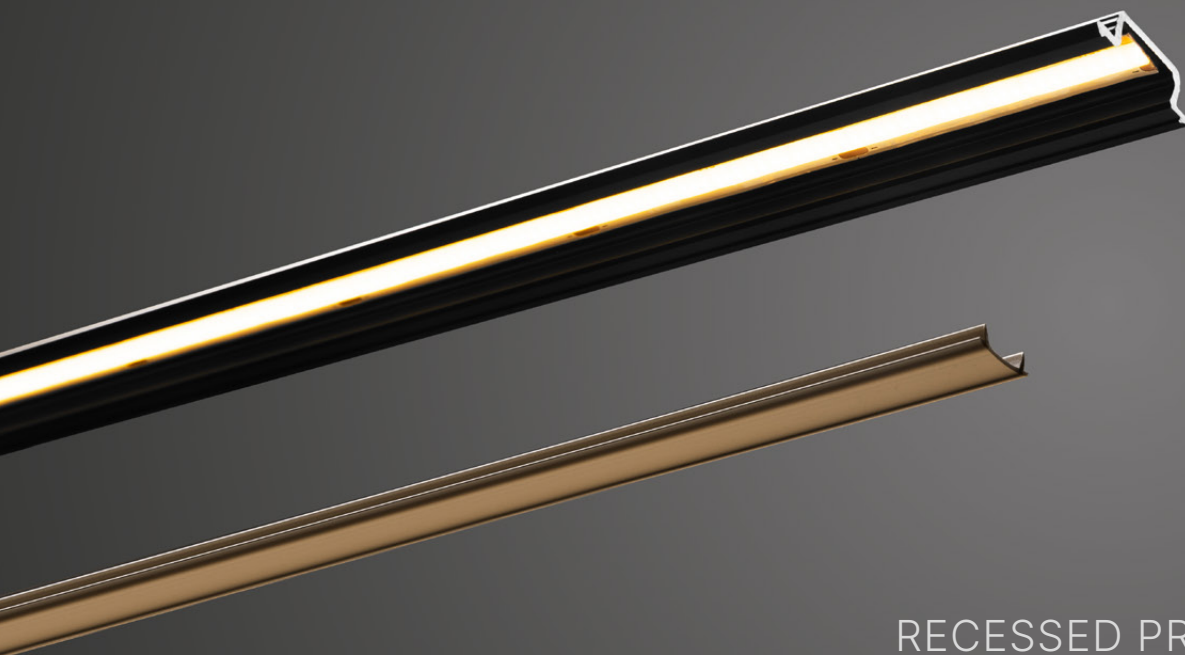

ANGLED SURFACE-MOUNTED PROFILES:

PA-GLAXNKKT-AL-20M (profile length 2 m)
PA-GLAXNKKT3M-AL-20M (profile length 3 m)
PA-OSCLGLAX-00 (profile cover 2 m)
PA-OSCLGLAX3M-00 (profile cover 3 m)
PA-ZASGLAXNKKT-20M (end cap)

LED SURFACE-MOUNTED MINI PROFILES:

PA-GLAXMNK-AL-20M (profile length 2 m)
PA-GLAXMNK3M-AL-20M (profile length 3 m)
PA-OSCLGLAXM-00 (cover for the profile 2 m)
PA-OSMLGLAXMO-00 (round, milky cover for the profile 2 m)
PA-ZASGLAXMNK-20M (end cap)

RECESSED PROFILES:

PA-GLAX-AL-20M (profile length 2 m)

PA-GLAX3M-AL-20M (profile length 3 m)

PA-OSCLGLAX-00 (cover for the profile 2 m)

PA-OSCLGLAX3M-00 (cover for the profile 3 m)

PA-ZASGLAX-20M (end cap)

The recessed GLAX profile is an ideal solution for those who wish to create a refined and subtle atmosphere in their interiors. It provides soft, even light without visible light points, highlighting the minimalist design and perfection of workmanship. The recessed Glax profile is the choice for perfectionists looking for modern and functional solutions.

Black is a classic style that has something for everyone. Black furniture and lighting accessories are not just components that make our space more functional and ergonomic, but also elegant and stylish.

We hope we have inspired you to rediscover black and introduce it into your interiors. Feel free to contact our sales representatives, who will gladly present you with our range of black accessories.
